Expedition Two science operations pass 100-day mark

The past week saw the International Space Station Expedition Two crew and supporting controllers and scientists on the ground celebrate the team's 100th day of science operations onboard the orbiting research facility. Marshall's Payload Operations Center manages all science research experiment operations on board the Station. For details, visit: <http://scipoc.msfc.nasa.gov>

Full-text Technical Standards System now online

NASA's Full-text Technical Standards System is now online. This system will provide NASA and its supporting contractor engineers and managers with Web access to full-text technical standards products from 108 standards developing organizations, including the Department of Defense and NASA, and related standards information. Anyone with a "nasa.gov" domain can access the system on the Web at: <http://standards.nasa.gov>

Marshall Center's Family Fun Day 10 a.m.-3 p.m. Aug. 25, picnic area
